

poods

Portable Organics Diversion System

The PODS program is designed to help businesses comply with the State of California Organics Mandate, AB1826. Effective January 1, 2017, businesses who generate 4 cubic yards of organic waste per week shall arrange for organic waste recycling. Effective January 1, 2019, any business who generates 4 cubic yards of solid waste shall arrange for organic waste recycling.

Food Waste Recycling at its best!

- ✓ USER FRIENDLY.
- ✓ MAINTAINS HIGHEST SANITATION STANDARDS.
- ✓ TOTES CLEANED & SANITIZED OFF SITE, ELIMINATING 'YUCK' FACTOR.
- ✓ CAPTURES FOOD AT POINT OF GENERATION.

How PODS work

1

Each pod contains 4 (32 gal) totes.

2

Customers wheel one tote to work station at a time.

3

Totes are filled with food waste and swapped out as needed.

4

RMG will deliver and exchange PODS with its forklift equipped flatbed trucks. RMG can also pick up other recyclables materials such as baled cardboard and shrink-wrap during the same service if requested.
